

Dear Sirs,

As anyone in the DC area knows the drive to work stinks. I spend over an hour in my car each way per day. XM radio and instant traffic and weather are fantastic! I can listen to any one of a hundred stations and not have to endure the same commercials over and over.

Please dont force XM to change a thing. I storngly recommend you take a listen to XM. youll be sold i bet. The only thing that keeps my commute sane!

Thank you

Mark R. Wirtz
